

# Pals Forever

by Bill Wahoff

I'm a Y Guide and I like the outside and I want to learn the Y Guide way.  
I go with my dad with friends by my side and we call each other animal names.  
**Pals forever, friends always, I'll remember this all my days.**

We meet in our homes, share our concerns, and do a craft out of wood or clay.  
We and our dads pray the Great Spirit has our lives in his hands.  
**Pals forever, friends always, I'll remember this all my days.**

We go to camp whether dry or damp and we climb around the rocks there all day.  
When the lights get low we want to know the stories native Americans say.  
**Pals forever, friends always, I'll remember this all my days.**

The campfire glows and the chief only knows what will happen the very next day.  
Then my dad and I with tired eyes say goodnight to the day.  
**Pals forever, friends always, I'll remember this all my days.**

**Pals forever, friends always, I'll remember this all my days.**
